Summer 2 Courses

- Opportunity to take an elective (all concentrations)
- Opportunity to take courses for the Community Health Sciences emphasis
- Opportunity to begin or complete coursework for the HPM Concentration
- Review past syllabi from the Curriculum & Advising page
- Reach out to your Faculty Advisor with questions about course selection

Community Health Sciences:
W204: Mass Communication in Public Health
W206: Maternal and Child Nutrition
W205: Program Planning, Evaluation, and Development

Health Policy and Management:
W223: Strategic Management and the Health Sector
Fall 2021: Second-Year Courses

For dates and enrollment information please see the Program Calendar 2021-2022

*Semester-long, 15-week courses

Health Policy and Management: W224: Organizational Behavior and Management; W220M: Health Policy Methods; W226A: Health Economics

Global Health: W212 Foundations of Global Health

Epi/Biostat: PHW250B: Epidemiologic Methods II*; PH 290: R*; W253: Outbreak Investigation; W260: Infectious Diseases; W236A: Regulatory Science; 252: Epidemiologic Analysis* (Please note 252 has prerequisites)
Fall 2021: First-Year Courses

Health and Social Behavior (W200G) and Introduction to Epidemiologic Methods (W250) will be 15 weeks

- August 23 - December 19, 2021
- Courses may be taken concurrently; Dr. vanDommelen-Gonzalez and Dr. McCoy will coordinate timing of assignments/exams
- Pace will be slower than the condensed versions:
  - A better way to learn epidemiologic methods for some students
  - May facilitate more engagement with 200G topics
Choosing Concentrations or Study Emphasis

Our Interdisciplinary program offers a specialized, customizable curriculum designed to meet the needs of working professionals with diverse cultural and professional backgrounds and specific public health career goals in mind. The program focuses on an interdisciplinary understanding of complex issues and the leadership challenges of successful interventions in public health.

Interdisciplinary Program

Epidemiology & Biostatistics Concentration

Students in the Epidemiology and Biostatistics concentration study the factors that underlie health and disease in human populations, including the analysis of data to develop and evaluate strategies for disease prevention and control.

Health Policy & Management Concentration

Our Health Policy & Management coursework serves a variety of professionals, from clinicians to program managers to policy leaders, across a range of healthcare sectors. Students develop key skills and the adaptability needed to work in this fast-paced and interdisciplinary arena. Emphasis on leadership and forming relationships with fellow students and faculty.
